

Alex. M. Morrison Passed On--Close of Active Life

Occupied Important Offices In Local Activities --- His Genial Temperament Developed Wide Circle of Friendships.

Alex. M. Morrison died at his home, 2436 West 33rd Avenue, Vancouver, on Sunday afternoon, following a paralytic stroke late Wednesday night. He lived in Coleman from 1903 till 1938, when with Mrs. Morrison he moved to Vancouver.

Among his activities here were those of mayor in the earlier life of the town; postmaster, president of the Board of Trade, president of the Citizens' League organized in 1932 to combat subversive Communist elements who sought control of town councils, school boards and mineworkers of the Crows Nest Pass; chairman of the Community Hall Committee, past district deputy grand master of Masonic District No. 6, besides other civic offices.

In 1921 he unsuccessfully contested this provincial constituency as a Liberal candidate, having been a staunch advocate of that party throughout his life.

He was born in the Hebrides of rugged Scottish parents, and came first to the mining regions of the Western United States, later coming to Coleman, where for awhile he worked in International Mine. In later years he established a thriving automobile and garage business and general insurance agency.

Public spirited in every way, his departure for the coast in August, 1938, was the occasion of a big gathering of friends of the Crows Nest Pass, and a presentation as a tribute to his sterling qualities. His wife, whose maiden name was Miss Jessie Alcock, formerly of Newmarket, Ont., was one of Coleman public school's early teachers, and they were married in Coleman. Their only child, Ruth, married in 1937 to Dr. R. H. Campbell, lives in Coleman, and left on Thursday morning by plane on receiving news of her father's serious condition. On Sunday morning Dr. Campbell left by plane to be slowly sinking, and he arrived in Vancouver a short time before death came early in the afternoon. He was attended since his residence at the coast by Dr. Keith MacLean, formerly of Coleman, and a friend of the family.

The funeral was held from the home in Vancouver on Tuesday afternoon. Many messages of sympathy from a wide circle of friends, and floral tributes, were sent. The flag at the town hall was flown at half-mast in respect to a citizen who for many years had ranked among the best.

January sales advertised in last week's Journal were well patronized, state Coleman merchants. About 1,000 attractive posters printed at this office.

PASSED ON AT VANCOUVER

Alex. M. Morrison

Prominent Coleman citizen for 35 years, who died last Sunday, January 21, at his Vancouver home. Enterprising, public-spirited and genial, he was one of the builders of this town, and showed his faith in its development by encouraging every movement for its progress. The foundation of his business success was in his sterling qualities of integrity and vision, for he invested heavily in the town, and during his lifetime, more than half of which was spent in Coleman, he witnessed and took part in its growth from a crude mining camp to a well-appointed town, served by up-to-date utilities and fine schools. With his death many a kind, friendly act is recalled by his friends, who were legion.

Caledonian Society to Honor Robbie Burns

Annual Affair Expected to Be a Great Success—Many Able Speakers to be Present

A large majority of brother Scots will gather on Friday night to honour Auld Scotia's famous bard, Robbie Burns. Songs, speeches and toasts will again mark the occasion in addition to the laden banquet tables which are fast becoming famous for their goodness.

During the past few years the committee has been very fortunate in securing some of the ablest speakers in the district to address the gathering on the life of Burns. One familiar face will be that of the late John Kerr, who was recognized the foremost authority in the Pass on the life of Burns. Dave Gillespie will again be present to give his address to the haggis.

Mrs. John Anderson is president and Mrs. Tom Mitchell is secretary of the society this year.

Make sure your sales message appears every week in these columns for the guidance of local buyers.

L.O.B.A. Elect Officers

Sister Blanche Clary Elected as Worthy Mistress

Installation ceremonies were performed at the regular meeting of Crescent Lodge, L.O.B.A. No. 599, Coleman, on December 6.

Past Mistress Sister Beatrice Holmes was assisted by Past Mistress Sister Mary McKinnon as installing officers.

The following were elected to office for 1940: Worthy Mistress, Sister Blanche Clary; Deputy Mistress, Sister Marjorie Parry; Chaplain, Sister Mary McKinnon; Recording Secretary, Sister Grace B. France; Financial Secretary, Sister Ruth Blower; Treasurer, Sister Elizabeth Dunlop; First Lecturer, Sister Mary Ferguson; Deputy Lecturer, Sister Mary McQuarrie; Director of Ceremonies, Sister Hannah E. Hate; Inner Guard, Sister Ethel Burrows; Outer Guard, Sister Margaret Dunlop; Pianist, Sister Dorothy McQuarrie; Guardian, Sister Elizabeth Dunlop.

Canadians Break Three Game Losing Streak

Trim Drumheller Miners 3-2 to Creep Within One Point of Fifth-Place Miners.

Canadians were flying high, wide and handsome on Tuesday night to again get into the winning column of the league standing, when they took a 3-2 decision from the fifth-place Drumheller Miners. The win put Coleman only one point behind the Miners. A disappointingly small crowd of 500 people watched the contest.

Coleman's "Big Bomber," Dan Sprout, again was the guiding hand in Coleman's win. He was again on the ice the entire game and in addition to playing a bang-up game on defence, took time out to pick up an assist on Gruhn's first-period goal and then fired home the winning marker in the third. Coleman's other goal was scored on a smart play by Gruhn and Luney, the latter scoring. Rodinsky received credit with Sprout on Gruhn's goal, while Sanderson and Bill Fraser were given assists on Sprout's third-period goal. Owens and Smith scored for the Miners.

It was a good game to watch, and many power plays were put on by both teams, the goalies being outstanding on occasions. Johnny Sheppard is fast rounding into shape, and is becoming an important cog in the Coleman's hockey machine. He was well applauded on Tuesday night.

RATEPAYERS' MEETING ON FRIDAY EVENING

Though the Burns Banquet may conflict with the annual meeting of ratepayers, there are usually some who can be depended on to show some interest in the carrying on of town and school affairs. Though silence, it is oft said, gives consent, yet plenty of criticism arises during the year, not infrequently from those who will not make time to attend the annual meeting.

No matter what your opinions may be of the policies of our governing bodies, they are entitled to some evidence of appreciation, and this can best be shown by the attendance of ratepayers at the meeting, when the year's business is reviewed and suggestions heard for the carrying on of the work.

Nominations for the officers of mayor, school trustees and councillors will take place the first Thursday in February, with elections a week later. Alex. Balloch of the Journal office has been appointed returning officer in the event of an election.

It is reported, though not confirmed, that William White, whose term as a councillor expires this year, will offer himself as a candidate for the mayoralty.

Young Man Fined \$100 And Costs

Dan Coccione Convicted on Charge of Fabrication of Robbery Complaint.

Dan Coccione, 25 years, found it rather expensive to tell fairy tales to the police, who are noted for lacking a sense of humor in matters of this kind. Appearing before Magistrate Gresham at Blainmore on Jan. 19, charged with fabrication of a robbery complaint, he was fined \$100 and costs or three months in jail. The fine was paid.

The charge was laid by the R.C.M.P. as a result of a report given them by Coccione on Dec. 10, when he stated that he had been held up on the night robbery in East Coleman and forcibly robbed of \$13.00. Police investigation later proved there was absolutely no truth to the charge. \$100 fine was the result.

"Accidental Death" In Mine Fatality

Inquest Tuesday Hears Evidence on Death of Joe Urbaska, Killed at McGillivray Mine

Joe Urbaska received fatal injuries on Monday morning when working in the Prospect of McGillivray mine. He was mining some coal when he slipped, a piece of top coal falling heavily on his back. He died while enroute to hospital in the ambulance. Deceased was partner to Ray Steurbert.

A jury, empaneled under Coroner A. Webster to hear evidence into the fatal accident to Joe Urbaska, on Monday morning, brought in a verdict of accidental death with no blame attached to anyone. The jury was composed of Tom Mitchell, foreman; H. Turner, C. Huffman, W. Jones, W. Dutil and J. Lipovski.

Dr. Claxton stated that Urbaska's chest was severely crushed, and death was due to shock and internal hemorrhage.

Harry Gardner, engineer, exhibited a blue print of the scene of the accident and gave a detailed description as to the position of certain pieces of coal, etc.

Ray Steurbert, partner of the deceased, told of hearing a fall of coal and a cry from Urbaska almost simultaneously. He rushed over and gave the injured man all the help possible. The accident occurred about 10 a.m.

In reply to a question, he remarked that Urbaska had been a capable miner. He thought Urbaska had slipped and top coal had fallen on him. Tom Goldring and Joe Bodisch, who worked close by, described the scene when they rushed to help the injured man. They could shed no light on how the accident had happened.

Robt. Parry, night fireboss, reported of having examined the place at 5.30 that morning, and found it in good condition.

Wm. Hopkins, day fireboss, stated he had not visited the place that morning until told that a serious accident had occurred. He had visited it the day previous. He thought that after the accident there was an abnormal amount of coal lying around, and wondered if more than a piece of the top coal had fallen in. He was the last witness.

Mines Inspector Evan Morgan represented the Department of Mines, Superintendent H. S. McDonald and Pit Boss J. O. C. McDonald represented the McGillivray Co.; Bert Garrett, Coleman Miners' Association, and M. Stigler, Coleman branch U.M.W.A.

"THE RECORDS TELL THE STORY"

Salaries and wages paid by Alberta taxpayers to public servants were increased by the Social Credit government from \$3,963,885.52 in 1935 to \$5,084,092.48 in 1939, an increase of \$1,120,206.96, or 28%.

That is one of the reasons why increased taxation in Alberta is necessary. Let the people know the truth, by all means.

Miss Lorraine Rippon returned last week from the Royal Jubilee hospital, Victoria

Hockey Summary for Week

Miners Maintained Undefeated Record

Defeat Macleod Articles 7-5—Four-Goal Spurge in the Coleman Period

The Bill Gate coached Coleman Miners maintained an unbeaten record in five starts as they smothered Macleod Articles 7-5 before a good crowd on Sunday evening at the local arena.

Miners led 2-1 at the end of the first period; trailed 3-4 at the end of the second and were far in advance in the third and final period, winning easily 7-5.

Fields and Fleming paced the locals with two goals each, Schnepf Pietraszki and Roughhead setting the others. Graham with two goals was the leading sniper for the visitors, Barnby, Ryan and Kennedy scoring the others.

Miners had previously defeated the Articles at Macleod last Friday by a 5-4 score.

Pee Wee Hockey Results

Legion and Excel Builders Sponsor New Teams

Playing at the arena on Sunday the Pee-Wees and Midgets gave an impressive display of hockey. Competition was exceptionally keen and provided numerous thrills for the large crowd of fans present. Results:

Pee-Wees

Italians 3, Legion 2.

Elks 1, Polish 1.

Italians 3, Pattinsons 0.

Midgets

Slovaks 5, Shamrocks 4.

The Pee-Wee Hockey Association has two more sponsors, namely, the Legion and Excel Builders, and next Sunday's games will mark the official opening of the Pee-Wee Hockey League.

The Midgets will not be eligible for the Pee-Wee championship, but the All-Star Midget team will enter the provincial Midget playoffs. Excel Builders will sponsor the team in conjunction with the Shamrocks and Slovaks.

TWO LOCAL RINKS ATTEND FERNIE 'SPIEL

D'Appolonia and Kerr Enter Strong Line—Spiel Started on Monday

Coleman Curling Club is represented at Fernie by the D'Appolonia and Kerr rinks, and both are expected to give a good account of themselves.

Personnel of the rinks: J. S. D'Appolonia, skip; J. H. Boulton, F. Antrobus, W. Anlie, J. Kerr, skip; W. Hoggan, A. Dow and R. Burt.

Dr. Key, unable to form another local rink, is attending the 'spiel as a member of his son Gordon's rink of Bellevue.

Mrs. Harold Willets entertained at her home on Friday evening at a bridge party. Prize winners were Mrs. Tom Mitchell and Mrs. Howard Davies.

Notice of Annual Meeting Town of Coleman

Public notice is hereby given that a meeting of the electors of the Town of Coleman will be held in the Council Chambers on FRIDAY, THE 26th DAY OF JANUARY, 1940, at eight o'clock p.m., for the purpose of receiving the report of the Mayor, Secretary-treasurer and Chairman of the various committees of the Council for the year ending December 31st, 1939.

Dated at Coleman this 19th day of January, 1940.

F. ANTROBUS, Deputy Mayor.
A. HALLIWELL, Secretary.

Your Right-of-Way to Canada's Market . . .

Canada's Weekly Newspapers are an essential link in every marketing and merchandising chain. The most thoroughly read publications in the smaller communities, they give you friendly access to two-thirds of the country's consumers. They are your right-of-way direct to the people who do 69% of the nation's retail buying.

For it is in the towns and villages of Canada, where local interests top all others, that the Weekly Newspapers top all others in reader interest. They are, as it were, the "community centre," an influential force in the lives of the 7,750,000 people who regard their Weekly as "our paper."

By using the Weeklies you reach consumers under the friendliest, most sales-making auspices. And you reach dealers, too, secure their co-operation by giving them advertising support they can see and by which they can profit.

Consumer goodwill and dealer goodwill are a sure-fire result of advertising in Canada's Weekly Newspapers.

Coleman School District

Public Notice is hereby given that THE ANNUAL MEETING of the Ratepayers of Coleman School District, No. 1216, will be held in the Council Chamber on

Friday, January 26th

1940, at 8 o'clock p.m., for the purpose of receiving the report of the Secretary-Treasurer, Chairman of the School Board and various committees of the Board, for the year ending the Thirty-first day of December, 1939.

Dated at Coleman this 15th day of January, 1940.

W. FRASER, Chairman of School Trustees.
GLADYS LEES, Secretary-Treasurer.

Neutral Nations Urged By Winston Churchill To Unite With Allies

London. — Europe's neutral nations were urged by Winston Churchill to join Britain and France in "united action" to speed the war against Nazi Germany to end and warned grimly that otherwise the flames of conflict would envelop them.

Asserting that the small states are the "victims upon whom Hitler's hate and spite descend," the first lord of the admiralty declared in a broadcast, which reached all the neutrals and was relayed to North America.

"They (the neutrals) comfort themselves that the Allies will win. Each one hopes that the storm will pass before his turn comes to be devoured. But I greatly fear that the storm will not pass. It will rage and it will roar even more loudly, even more widely. It will spread to the south. It will spread to the north."

"There is no chance of a speedy end except through united action."

"If at any time France and Britain, wearying of the struggle were to make a shameful peace," Mr. Churchill added, "nothing would remain for the smaller states of Europe with their shipping and possessions but to be divided between opposite, though similar, barbarisms of Nazism and Bolshevism."

For themselves Mr. Churchill said, the Allies were not concerned over the eventual outcome.

"Numbers do not daunt us," he said, "but judged even by the test of numbers, we have no reason to doubt that once the latent and rapidly growing power of our great nation and Empire are brought, as they must be, fully in line with the magnificent efforts of the French republic, then even mass and weight we shall not be found wanting."

Mr. Churchill declared Britain is more confident day by day of our ability to police the seas and oceans and to keep open and active the waterways by which we live and along which we shall find the means of victory.

"It seems pretty certain," he said, "that half the U-boats with which Germany began the war have been sunk and that their new building has fallen far behind what we expected."

Bluntly he told Europe's main neutral states that "only with the British and French convoys is safety to be found" and declared: "neutral ships are being sunk without mercy."

"The Dutch, the Belgians, the Danes, the Swedes and above all the Norwegians have their ships destroyed whenever they can be caught upon the high seas," he said.

With the British convoys, on the other hand, Mr. Churchill said, "there is a 50 to one chance against being sunk."

Neutrality Zone

Britain Replies To Protest Of South American Republics

London. — British sources stated that Great Britain had replied to the protest of 21 American republics against violation of their neutrality "safety zone" by taking the position that the zone was not enforceable under international law.

The reply was in the form of a note transmitted to the Panama government for presentation to the permanent Pan-American neutrality committee, it was said. Its contents were withheld.

The republics October 3 established a 300-mile "safety zone" around the Americas from which it was desired to keep the war. On December 23, 10 days after the battle off Uruguay between British battle cruisers and the German pocket battleship Admiral Graf Spee, the Pan-American nations protested to Great Britain, France and Germany against violation of their zone.

More Co-operation

London. — Raoul Dautry, French armaments minister, came to London with a party of scientists and organization experts to promote joint French and British war efforts in the laboratory and the factory.

Russian Forces Routed And Bitterly Fighting A Rearguard Battle

Helmsborg. — Russian forces, routed within striking distance of success in an attempt to cut Finland in two with a highway and rail drive, were fighting a bitter rearguard battle in a desperate attempt to escape to their frontiers.

Advices from the Lapland front, just above the Arctic circle, said that the Soviet troops, after hammering rain at Finnish defences for six weeks, suddenly abandoned their trenches, retreated toward their own border near Salla and were fighting desperately to get away safely.

Two other Soviet divisions were likewise reported in difficulties some distance north and east of this activity.

The Russian drive westward in the Salla sector was the most direct of several aimed ultimately 200 miles across Finland to capture Tornio, a railroad at the head of the Gulf of Bothnia.

By doing this the Russians believe they could cut Finland's overland supply route from Sweden.

Troops Were Visited

King George And Queen Elizabeth See Men At Aldershot

Aldershot, England. — The King and Queen spent more than four hours among their subjects in khaki who have been undergoing rigid training under the Aldershot command.

Their Majesties did not visit the Canadian divisional area. That will come later. But a number of Canadian troops were seen along the route of inspection.

In bitter cold their Majesties toured informally more than 50 miles of troop-lined highway, many miles of which were covered on foot. They visited post-grounds, messes, cook-houses and billets. They inspected the men together and occasionally separately. The Queen meeting officers and men from famous British regiments while the King strolled along the ranks.

Manitoba Sugar Refinery

Contracts For Sugar Beets Will Be Made With Farmers

Winnipeg. — Contracts for production of sugar beets for the Manitoba Sugar Company's new Port George refinery will be made with 2,000 or 3,000 farmers living in a 70-mile radius of the plant.

The allotments of acreage, which altogether will run between 12,000 and 15,000 acres of beets, will be made this winter in order to assure production next summer.

Area of sugar beet production will be roughly the Red river valley, between Selkirk and Emerson and between Portage la Prairie and Beausejour.

Poland Persecutions

Nazis Are Charged With Mass Shootings Of Helpless People

Paris. — Authoritative Polish quarters estimated Nazis had executed a minimum of from 15,000 to 20,000 Poles since they swept across Poland last autumn.

In addition tens of thousands of Poles and Jews have been shuttled into ghettos, placed in concentration camps or sent to Germany for obligatory labor service, these sources charged.

They said the Germans had forbidden authorities to post up death notices on city buildings — an old Polish custom — on the ground such action defaced the structures. Polish quarters in Paris are convinced this move was designed to prevent the population from learning how many have died.

On Jan. 11 the Polish information centre here charged 6,000 Polish men and women had been shot by German storm troops at the town of Bydgoszcz alone since fighting ended in Poland. All the surviving men of the town were shipped off to join labor gangs in the Reich or other parts of Poland, the centre claimed.

It was reported here last Dec. 11 that 5,000 Poles were executed in Poznan province up to that date. Despatches reaching here said 500 Poles had been executed in the city of Poznan since the start of the New Year.

Thousands also have been reported killed in Warsaw, Krakow and other Polish cities now under the ironclad censorship regulations imposed by the Nazi invaders.

Widespread evictions of the Polish population from many cities, especially those of Pannania, Pomerania and Silesia, is being carried out with unheard of brutality, Polish sources charged, and all big properties owned by Polish landlords are being confiscated.

Fishermen Break Tradition

Wartime Needs Make It Legal To Sell Sunday Catch

London. — A long-standing tradition among the Clyde herring fishermen went by the boards when for the first time in the memory of living man fish caught on Sunday were sold in the London market.

The sale of herring caught between Sunday and daybreak on Monday hitherto had been considered illegal, but with the war hampering fishing operations and the nation requiring every available ounce of food in keeping with wartime economy the fishermen violated their ancient rule and brought in their catch.

Shipping Office Planned

Will Assist Exporters To Secure Space In Neutral Ships

Ottawa. — A shipping office is to be established in Ottawa under a shipping director, soon to be named, to assist exporters in securing space in neutral ships so that Canada's worldwide trade may be retained despite the war.

A slight falling off in Canadian exports to countries outside the United Kingdom and the United States is believed to be due largely to lack of shipping space, though the export business in general is in a robust state.

Donation For Finland

London. — An elderly white-haired man visited Minister G. A. Gripenberg at the Finnish legation and gave him £5,000 (about \$22,250) in cash to help Finland, but left without disclosing his identity.

U.S. MARINES GO — BUT NOT TO WAR

U.S. Marines depart from Norfolk, Va., bound for the Caribbean area for war manoeuvres. The battleship Arkansas is in the background.

CHINA RELIES ON HIM

According to reports from the east, much of China's success in resisting the Japanese is due to W. H. Donald, unassuming Australian newspaperman, who is unofficial adviser to Generalissimo Chiang Kai-shek, Chinese leader.

Will Aid Finland

Britain And France To Increase Shipments Of Arms

London. — Britain and France in the next few weeks will increase their shipments of arms and munitions to Finland, it was predicted.

The Allies already have sent substantial assistance to Finland, including planes, but more will be necessary as the spring thaw approaches, permitting Soviet Russia to utilize her overpowering advantage in manpower. Finland's crisis probably will come in May when the snow begins to melt.

Sources close to the British government expressed the opinion that the "Finnish front is essentially an Allied front."

They did not mean the Allies should send men to the Finnish front but that all possible supplies consistent with their own military needs should be sent.

Finland's remarkable stand against the Red army has had the effect of keeping Russia too busy to become an active ally of Germany. In addition it has made it difficult if not impossible for Russia to strike in the Balkans against Roumania. Finally, it may have had some restraining influence in German plans for an offensive in the west.

Advertising Did It

Efforts To Improve Canada's Apple Situation Have Been Gratifying

Montreal. — Col. R. L. Wheeler, chairman of the national apple advisory committee, told the Canadian Fruit Wholesalers' Association results of the Dominion government's efforts to improve the Canadian apple situation have been "most gratifying."

The award was made in recognition of Mr. Seymour's leadership and work in negotiations leading to elementary training by the clubs of Royal Canadian Air Force pilots.

The medal is awarded annually to the non-professional Canadian pilot considered to have rendered the most meritorious service to aviation during the preceding year or more.

Canada's War Loan Was Over-Subscribed By Sixty Per Cent.

British Seamen Captured

Condition On Board A German Tanker Are Described

London. — Three hundred or more British seamen captured at sea were imprisoned aboard a German tanker in conditions "recalling the days of slave traders," an official statement declared. The incident occurred when the tanker was a supply ship for the pocket battleship Graf Spee.

Naval sources said the tanker had not been reported for more than a month and while a search for her was being pressed it was possible she might have reached a German port.

Conditions on the tanker were described by British merchant seamen who were liberated from the Admiral Graf Spee when she was trapped in Montevideo harbor last month. They arrived here just recently.

The statement asserted the prison quarters were crowded, rations insufficient, smoking forbidden and British officers humiliated before East Indian crewmen who "were given preferential treatment at every turn."

It said the prisoners were forced to sleep on mattresses covered with lice and other vermin.

The food, it added, was "scarce and bad" and the water ration for drinking and cooking was a quart daily. When the Admiral Graf Spee ran into Montevideo harbor Dec. 13 after a running battle with three British cruisers she surrendered 62 British seamen taken from nine raided merchantmen.

British Aircraft Industry

Will Have Capacity Double Of That In United States

Ottawa. — C. A. Van Dusen, first vice-president of the Consolidated Aircraft Corporation of San Diego, Cal., said that a visit to Great Britain convinced him the British aircraft industry when fully underway would have a capacity "twice that of the United States plant."

Here on a visit to his brother, Frank, the U.S. aircraft executive said he travelled extensively throughout the world in 1938, visiting England, France, Germany, Russia and other countries.

Van Dusen also said the methods of manufacture of the British aircraft industry were "superior to anything I saw in the rest of Europe, including Germany."

Awarded Gold Medal

St. Catharines Pilot Honored For His Service During Last Year

Ottawa. — The 1939 gold medal of the Canadian Flying Clubs Association has been awarded M. A. Seymour, of St. Catharines, Ont., the association president, it is announced.

The award was made in recognition of Mr. Seymour's leadership and work in negotiations leading to elementary training by the clubs of Royal Canadian Air Force pilots.

The medal is awarded annually to the non-professional Canadian pilot considered to have rendered the most meritorious service to aviation during the preceding year or more.

Sir Kingsley Wood Predicts Air Plan Will Greatly Aid War Effort

London. Sir Kingsley Wood, secretary for air, in a speech at the Overseas Club, predicted the Empire air training scheme centred in Canada "will undoubtedly prove to be an outstanding feature of the war."

"An unprecedented effort is being made by the Empire at this time in relation to our common air forces, both in material and men," Sir Kingsley declared, "and it is most encouraging to see what our great dominions are doing in this respect."

"If the squadrons of the Royal Canadian Air Force soon will be playing a part in active operations in Europe. Some little time ago the Canadian government suggested that a Canadian squadron should be formed from Canadian personnel already serving in the R.A.F. As a consequence a new fighter squadron has been formed. All pilots in this squadron are Canadians, the squadron leader and senior night com-

Ottawa. — Canada's \$200,000,000 war loan was oversubscribed by 60 per cent., with cash subscriptions reaching a total of \$321,276,850 when the books were closed, the Bank of Canada announced on behalf of Finance Minister J. L. Ralston.

In addition, conversion subscriptions totalling \$53,300,000 were received, of which \$50,000,000 has been allotted, making the total amount of the first loan \$250,000,000. This conversion was made with Dominion of Canada three per cent. bonds due next March 1.

All subscriptions of \$5,000 and under have been confirmed in full, while cash subscriptions from large institutions and corporations entered through the national subscription committee have been allotted 40 per cent. of the bank said.

Col. Ralston, in a statement issued after the totals were reached, said: "The response of the people of Canada in every walk of life and in every part of the Dominion in connection with the loan has exceeded my highest expectations."

"It is a response which will be heard and unmistakably understood the world over, and particularly by our Allies and by our enemies. Here in this Dominion, it gives us a united nation, increased confidence in ourselves, and even greater determination and resolve for whatever lies ahead. Canada thanks every citizen who has helped in any way towards the outstanding success of our first war loan."

The third largest subscription to the war loan campaign in the final hour from Metropolitan Life Insurance Company, Ottawa, for \$5,000,000.

Other large subscriptions for the final hour included the Saskatchewan school board \$31,000.

A feature of the late returns of the war loan campaign was the number of group employee subscriptions from a number of centres across Canada, totalling over \$1,140,000. Dealers reported the few extra days of open books after the loan had already been over-subscribed, had enabled employees to organize for subscriptions.

Employees of the Steel Company of Canada, as a group, topped the list with a total of \$250,000. Winnipeg Free Press employees took \$27,550.

One of the day's subscriptions came from a group of Vancouver Japanese for \$4,650.

One large institution actively engaged in the distribution of the loan reported having received 5,490 individual subscriptions which averaged less than \$975 for each subscription. Another firm reported an average of \$880 on a large number of rural subscriptions in the Maritimes.

More For Defence

Ankara. — Turkey's government boosted record defence estimates by \$200,000,000 in addition to asking the national assembly for special powers to deal with national defence and economy in case of war. Britain and France, with whom Turkey has mutual assistance agreements, are lending her \$100,000,000 to buy armaments.

Under being officers of the R.C.A.F.

Australia has placed at Britain's disposal valuable aircraft and crews already in this country and since then further Australian personnel has arrived. The latter will be of value in the reconnaissance service around the coasts.

The South Rhodesia government is bringing an existing unit to full squadron strength and will provide two squadrons for service at any front, also providing training facilities, Sir Kingsley said.

South Africa took steps to increase her training facilities. The strike power of her forces already has been shown in spotting movements of enemy merchantmen, the air secretary continued. Newfoundland and New Zealand are also helping. He predicted there would be a great demonstration of Empire power and unity when men of various forces fit themselves to play their part in the common cause.

PERSISTENCY and attention to your daily business, whether employer or employed, is necessary to progress in your vocation.

Throughout the year, as money comes in from grain, livestock, poultry, honey sales and dairy products, it is your job to see that when those moneys are spent they will bring the greatest returns in comfort and happiness to your family.

The best way to get ahead is to plan ahead—and right there's where EATON's comes in.

EATON Catalogues are "store between covers" that illustrate all the newest styles and the finest quality merchandise at the lowest possible prices. With an EATON Catalogue before you, you can plan in advance your purchases for a week, a month or six months.

Follow such program of planned buying and you'll be surprised how much money will be left in your purse to spend at the end of 1940.

NOTES AND COMMENTS

THOUGH 1940, from a world standpoint, was ushered in under very disturbed international conditions, business must go on as usual. Opportunities abound for the enterprising and energetic as they always have, in fact the stimulus of war's effect on business will provide increased employment. It is the aftermath of the war that must be prepared against, so that errors following the last war may be avoided.

FOR political purposes some leaders, such as Premier Hepburn of Ontario, create difficulties for Canada's war time government. Criticism has its part in democratic government, but when made, apparently solely to try and gain political advantage, it usually fails of its purpose. Mitch Hepburn has become obsessed for personal reasons in bitter enmity against against Prime Minister King, but he will not carry Ontario Liberals with him, as evidenced by various organizations who openly disagree with his attitude.

THERE is rather grim humor in a resolution passed at the Social Credit convention last week, whereby an investigation was sought into the deal for the Calgary Albertan by shareholders who on the solicitation and radio salesmanship of Premier Aberhart, purchased shares in the Albertan company at \$25 each, on the understanding it was to espouse the principles of Social Credit. Like many other political parties who have tried to influence public opinion through a newspaper owned by themselves, it did not last, and by non-completion of the terms of sale, the paper reverted to the original owners, leaving the Social Credit shareholders with their certificates as a souvenir of what might have been. A propagandist newspaper satisfies only those who agree with the cause it advocates. The general public tire of such papers. That is why they do not last, or have to be subsidized by party funds to keep alive.

DURING Mayor Pattinson's years of office a definite improvement project was launched in which ratepayers benefited, particularly in eliminating the dust nuisance by surfacing roads. A further needed improvement is the better lighting of Main street. Property there is naturally the highest assessed for town and school purposes, besides which merchants pay an additional heavy tax on stocks. Every citizen takes pride in the appearance of his home town, and an improved lighting system in the business area would be an advantage in many ways. We still have the old poles and goose necks of early days, whereas ornamental standards would be more in keeping with the advanced status of the place.

ALBERTA'S Social Credit government has asked the Federal government for a bank charter. It would be interesting if the bank is established to get some of those interest free loans of which the premier has so often talked. In fact, it would possibly be a good thing if this experiment were tried, just to see the result. One thing is safe to predict, and that is that not even the premier or any of his most ardent supporters would be willing to lend their

money to anyone, not even to a Social Creditor, without any charge whatsoever. But they propose to do it with other's money if they can get their hands on it.

WERE Britain and France to lose this war, the United States would quickly find that the lack of protection of the British Navy would be such a handicap that after European countries had been crushed between Nazism and Sovietism, they would quickly be the next country to come into the orbit of Hitler's bid for world domination. The ideals of Hitlerism and Democracy being as wide apart as the North and South Poles, a war would eventually develop between those countries, and one has only to reflect that German raiders have been swept from American waters and shipping lanes by the gallant British Navy. Americans have little to boast of that they are determined to keep out of this war. It is their concern that Britain and France should win, as it is the concern of the neutral European countries which never know when they will be attacked. Winston Churchill spoke the truth in his latest broadcast in pointing out the menace under which neutral nations live. A nation that will commit wholesale murder on the high seas, not only on belligerents but on neutrals, is sufficient demonstration of what the world is up against.

IN this issue is a lengthy statement under the heading of paid advertising, from Coleman Miners Association, which demands attention. It is in reply to propaganda issued by United Mine Workers of America district office in Calgary. In it the inference is made that the present local secretary of the U.M.W.A., while serving as secretary of Coleman Miners Association, elected and paid by them, was organizing for the U.M.W.A. It was a pointed instance of trying to serve two masters. The more honorable course would undoubtedly have been never to have accepted the office if his allegiance to one organization conflicted with the other. The miners might state it is none of our business to make any comment on affairs which concern themselves, but on the other hand we are all vitally interested in local labor relationships between employers and employed, for if there is any loss resulting to workers from tie-ups in the coal industry, the merchants too take a big loss in not receiving payment of credit accounts. That the men have the right to their own choice in organizations for collective bargaining is admitted. As an existing organization, for nearly seven years, brought into existence through labor disruption by Communist agitators in 1932-33, some of the most prominent of whom are at present paid officials of the organization which is seeking to destroy Coleman Miners Association, the latter has every right to maintain its stand for local autonomy in its affairs between themselves and the companies which employ them.

Just a day before he was seized with a stroke, that resulted in his death, Mr. Alex. M. Morrison wrote from Vancouver: "I have been receiving The Journal regularly every Monday, and I value the paper very highly." It was always the kind word that endeared him to the hearts of his fellow citizens.

Red Cross Society Regular Meeting

Tag Day Will Be Held on Feb. 3, And a Prize Drawing Probably Later; Committee Appointed

The regular monthly meeting of the Red Cross Society was held in the council chamber on Monday evening, Mrs. W. L. Rippon, vice-president, being in charge in the absence of President Wilfrid Dutil. Fifteen members of the committee representing various organizations were present. The minutes of the previous meeting and correspondence were read by Mrs. Arthur E. Graham, secretary.

It was decided that the Tag Day of February 3 be in charge of Miss A. Yuill, who kindly volunteered the help of her Junior Red Cross children to sell the tags, which will be in the form of Waterton Roses, made up by Waterton branch of the Red Cross. It is hoped that a generous response will be given to their efforts to raise funds for the purchase of supplies to be made up by the War Work committee on Tuesday and Friday afternoons. Miss Gladys Lees volunteered to assist Miss Yuill in supervising the sale on Tag Day.

Another suggestion before the meeting was to organize a draw for a prize to raise funds for local War Committee supplies, and a committee including Herb Sherratt, Steve Ewanec and H. T. Halliwell will report at the next regular meeting. The secretary will in the meantime ascertain if permission can be obtained to hold the draw.

Mrs. Rippon reported that several ladies had helped in the War Committee work, but there was still room for additional helpers, who could secure supplies at the council chamber and take the material home to make up, if they found it inconvenient to remain at the council chamber on Tuesday or Friday afternoons.

The next meeting of the general committee will be held on Monday, Feb. 19, at 8 p.m. The public is reminded of the Tag Day on Saturday, Feb. 3.

St. Alban's Parish-ioners Annual Meeting

About forty attended in the parish hall on Wednesday, Jan. 17, Rev. J. R. Hague presiding. The following reports were submitted: The rector's report giving the number of services, baptisms, marriages and deaths; the report of the general finances, receipts and expenses for 1939 by H. T. Halliwell, people's warden, and report of the envelope secretary by Frank H. Graham. Mrs. H. T. Halliwell submitted the report of the Ladies Guild, and Mr. Hague the report of the Sunday school. All current expense were met, leaving a small balance in the general funds, while the ladies showed a surplus from their bazaars, teas, etc.

During 1940 it will be necessary to raise more than in former years, as the Diocesan grant to the parishes of St. Alban's, and St. Luke's, Blairmore, has been decreased by one sixth. The meeting endorsed a motion that this reduction be made up among the parishioners.

Mr. Hague thanked all who had supported the church and a vote of thanks was passed to the

OF INTEREST TO THE LADIES

Guild, to Mrs. M. Clifford, organist and choir director, and the choir members. The evening

closed with refreshments served by the ladies.

Officers elected were H. T. Halliwell, people's warden; S. C. Short, rector's warden (appointed) George McMullen, W. Martland, W. Borrows, R. F. Barnes,

Born—To Mr. and Mrs. Ken Blain on Monday, Jan. 22, a daughter.

TOWN of COLEMAN FINANCIAL STATEMENT

FOR THE YEAR ENDING DECEMBER 31st, 1939

216-217 P. Burns Building,
Calgary, Alberta,
18th January, 1940.

The Mayor and Councillors,
The Town of Coleman, Alberta.

Gentlemen:
In accordance with your instructions and the requirements of the Town and Village Act of Alberta, I have audited the accounts and records of the Town of Coleman for the year ended 31st December, 1939, and in addition to completing the Report Form required by the Department of Municipal Affairs for Alberta, I have also prepared the attached Cash Statement, Revenue Account, and Balance Sheet as at 31st December, 1939, for your information.

The Cash Statement deals only with actual Cash Transactions taking place during the 1st January to 31st December, 1939, regardless of whether the items were actually connected with the business for year 1939. The Revenue Statement shows the Earnings and Expenses for the year 1939, regardless of whether all such earnings were received or such expenses all paid out prior to 31st December, 1939. The Revenue Statement shows that after making the usual allowance for Depreciation of the various Physical Assets of the Town, the 1939 business recorded a Deficit of \$732.42, while in addition to the Expense Items shown in the Revenue Statement, there was the further sum of \$6,896.33 spent for Street Paving and Sidewalks, the purchase of land required to properly drain some low level areas, and to replace the General Haulage Truck bought in 1934. The

expenses for Capital Account are omitted from the Revenue Statement and will be found among the Assets in the Balance Sheet.

The Deficit is caused by extra cost of Public Works, \$639.11, of which sum the amount of \$535.69 was expended to operate the Outdoor Rink; and small increases in expenses of License and Police Department, Mothers' Act Payments, Old Age Pensions, and Assessment expense.

You will note that Tax Arrears have again been reduced and at 31st December, 1939, were only \$6616.74 or approximately 40% of the current levy, which is a very satisfactory condition, particularly having regard to the fact that the Fixed Assets of the Town, amounting to \$67,561.65, have been depreciated to date in the approximate amount of 73% as you will see by the Balance Sheet.

I beg to report that I visited the Town Office on six occasions during the year and each time I found the work up to date, the records in balance, and the cash properly accounted for and deposited in the Bank. Subject to the foregoing, I certify that, in my opinion, the attached Balance Sheet is properly drawn up to disclose a true and correct view of the affairs of the Town of Coleman as at 31st December, 1939, according to the best of my information, the explanations given to me, and as shown by the books of the Town of Coleman, Alberta.

E. D. BATTEUM,
Public Accountant.

I hereby certify that the above information is in accordance with the books and records of Coleman School District No. 1216, of the Province of Alberta, and from the information given me I believe the same to be correct. I further certify that I have made a copy of this Report for the School District Cash Book.

January 10th, 1940.

J. EMMERSON, Official Auditor,
Coleman, Alberta.

A VICTORIA JANUARY IDYLL

Vancouver Island's reputation as Canada's Evergreen Playground is upheld by this idyllic scene photographed January 6th at Victoria, B.C. The lamb is a real one, only six days old. It was born January 1 on the farm of E. T. Woodward, near Victoria. The pretty little lady is Sally, two-and-a-half-year-old daughter and only child of Commander E. A. ("Tony") Wright, R.C.N., and Mrs. Wright, Esquimalt. The flowers were picked in the gardens of the Empress Hotel. Canadians and Americans are visiting Victoria in large numbers this winter, the ideal weather permitting them to enjoy winter golf, tennis, fishing, riding and hiking under splendid conditions.

A New Valuable TOOL IN EDUCATION

Recent tests, conducted by prominent educators, have shown parents, educators, and students that the portable typewriter is a most valuable educational tool. In a dramatic two year series of tests they have proven that most children improve grades as much as 14% when using a portable typewriter.

An unexpected outcome was that, in addition to betterment in Composition, Geography, History, Science and even Arithmetic, self expression became easier even for any student.

You, too, can have this marvelous educational aid—for Remington Rand makes it easy to get! Only a small deposit, and terms as low as 10¢ a day, will bring you the Remington Portable; and that's a trifle higher. Read what prominent educators say about student use of typewriters. Send for Free Booklet.

FREE! 32-PAGE TOUCH METHOD INSTRUCTION BOOK
with any Remington Portable you buy. It contains lessons, exercises, charts and illustrations to help teach you typing by the touch method.

Remington

REMETTE PORTABLE

Lowest priced complete standard portable in Canada. Full standard keyboard, shift keys, shift lock, back spacer, margin stops. Extra strong geared type action, nothing that can get out of order. You'll be thrilled when you see how easy it is to type with the Remette Portable.

SPECIAL CARRYING CASE

Included in the purchase price of your Remington Portable is a specially designed Carrying Case.

PAGING THE CENSOR

Even in times of war, the good old Anglo-Saxon spirit of independence and of refusal to be "put upon" manifest itself.

Take for example the following editorial from The Times-Review of Fort Erie, Ontario, entitled "He Is Off Our Mailing List."

"Perhaps he hasn't noticed yet, but if this war lasts long enough, the press censor at Ottawa may find out that he has been taken off the mailing list of The Times-Review. The reason: Non-payment of \$2.00, the subscription price."

"Back in the early part of October we got a curt request from the censor to put the 'Examiner of Publications, Room 201, Connaught Building, Ottawa,' on our mailing list. We did so, but not thinking that he expected to get our paper free—no more than he would presume to go into the drygoods store, a few doors from our office and demand a bolt of cloth without payment—we sent him a bill for a year's subscription. He has not paid. He has not given us any reason or excuse for not paying. He did not even acknowledge receipt of our bill.

"So from now, the Examiner of Publications is off our mailing list. If he suspects us of being so indiscreet as to publish such a bit of news as 'Private Petrofsky in camp Somewhere in Ontario has written to his sweetheart, Susie Schultz, in Fort Erie, that he expects to sail from Halifax next March or April for Somewhere in Europe,' he will have to come to our office and examine our files, which are open to him as they are to everyone.

"Or, if he is concerned about doing his job economically, he might have one of his bright young men go to the library of either the House of Commons or the Senate, where every newspaper in Canada is sent as soon as published, to check on us.

"The people who work 50 hours or more a week to make The Times-Review are just as anxious as Ottawa for Canada to put its full strength into the British Empire effort to defeat the wickedness of Hitler and Stalin, but they have their grocery bills to pay, and there is the rent each month."

We may say that the examiner of publications has been similarly lax about a little matter of the subscription to The Herald, as well.

SALVATION ARMY OFFICERS HERE NEXT WEDNESDAY

Special Meeting of Women to be Addressed by Gifted Speaker

La-Col. R. T. Spooner, commander of the Salvation Army forces in the prairie provinces, accompanied by Mrs. Spooner, and Brigadier L. Urzaki, leader of Alberta district, will be here on Wednesday, Jan. 31, 8 p.m. is the hour of the special meeting. Col. Spooner, before coming west, was with territorial headquarters in Toronto, having charge of young people's work in Canada, Alaska, Newfoundland and Bermuda.

Mrs. Spooner will lead a women's meeting at 8 o'clock on Wednesday afternoon. She was a member of the pioneer group who commenced Salvation Army work during the Klondike gold rush.

A cordial welcome is extended to all to be present at these meetings.

FIREWOOD—All kinds supplied at reasonable cost. You find good value in buying from John Salvador, Telephone 249f.

Died This Morning

Joe Plante's father died early this morning at Gleichen, a wire being received from Joe, who left on Monday morning on receipt of news that his father was seriously ill. He was 80 years old, and visited here last summer. A real pioneer who travelled the mountain trails before there were railroads or highways, he was a link of the early settlement of Alberta. Time does not permit a more detailed record of his life before going to press.

LOCAL NEWS

A youth driving a delivery truck for Spieva's Grocery came to grief on Friday. Driving speedily down Central avenue and being unable to make a turn at an intersection, he collided first with Oliver Barringham's taxicab, then smashed into the wall of the bank. The truck was considerably damaged. One of the taxicab's fenders was damaged.

Reg. Jones has gone to Mohawk Mine, and his place as timekeeper at International is at present being taken by Adam Wilson.

Juniors Play Blairmore Here Friday

Ray Spillers will send his juniors against Blairmore juniors at the arena on Friday evening at 8.15 in their first home game of the season. The locals have already defeated Fernie and Michel-Natal in two engagements, and rule heavy favorites to win over the Blairmore sextet.

Ray is anxious that his charges retain for Coleman the provincial Class B championship won last year by Coleman juniors, the members of which have graduated to intermediate ranks this year.

Good printing creates a favorable impression—that's why Journal and Bulletin ads count.

Canadians Lose 6-4 in Overtime

Olds Elks Punch Home Two Goals in Extra Session to Win; 800 Fans Present.

Canadians suffered their third straight defeat on Saturday night, when Fraser Colleen's scrappy Olds Elks scored the tying goal with only four minutes to go in regulation time, and then punched home two goals in the bargain session to win 6-4. Eight hundred fans watched the contest.

Elks were more aggressive and, with the exception of a brief rally by Canadians in the first five minutes of the third period, when they rapped home three goals to take a one-goal lead at 4-3, they were outskating the locals.

Liney and Sturk divided Coleman's four goals between them. Dan Sprout, Fraser and Redsky played outstanding games, trying their utmost to score. Wolf saved many dangerous shots that seemed certain goals. Too much individual work on the part of a Coleman player was responsible for one Olds' goal that should never have been scored. Johnny Sheppard is fast becoming a favorite with the fans. When the rest of the team seems to be in the doldrums Johnny desperately holds the fort and makes dashing plays down the ice in an effort to score.

SCHOOL FOR SABOTAGE

Six months' investigatory work has led to charges in New York against fifteen men, eight of whom have pleaded guilty, of conducting a school in methods of sabotage and strike violence. During a garment workers' strike in the fall of 1938 this group, members of a C.I.O. machinists' union, are alleged to have given instruction in how to throw acid on a show window without burning themselves, how to ruin a lock with a needle, how to wreck machinery quickly, and how to make strikebreakers.

The existence of such activities is damaging in the extreme to the labor movement and is deplorably misrepresentative of genuine trade union organization. The perpetrators of sabotage and intimidation are to labor unionism what chisellers and exploiters of labor are to the employer side of industry—a fringe that throws discredit on honest workers and operators. Labor itself must welcome their elimination.—Christian Science Monitor.

Michel Legion Branch Honored Burns' Night

From the secretary of Michel-Natal branch of the Canadian Legion, A. McGovern, comes the following:

We had our invitation dance in honor of Burns' Night, which was attended by many friends from Michel and Natal. Our good friend, Allan McLeod, rendered reels and jigs in his best Scottish style. Comrade J. F. Mitchell sang "The Star o' Rabble Burns," his fine voice being highly appreciated. Dancing was kept going till early morn, in which the younger generation excelled.

Robert Martin, of the 107th Battery, Canadian Artillery, recently returned home for a visit, after taking a signaller's course at Kingston, Ont. He left on Sunday morning to rejoin his unit at Edmonton. Harry Brown, formerly of Kimberley Dynamiters, is in the same battery.

Continuation of Letter From Coleman's Pioneer Minister, Rev. R. A. Robinson

Started a Private School Here and Was Secretary of First School District—Also Handled Mail

LABOR TROUBLES IN N. S. had beaten the police. Many more police were then sent and told the men they would use tear gas. This scared them, and the cars were taken out. Meantime, an agreement was reached in a conference between government representatives and those from the companies and men. The plants were to be re-opened and the union recognized, while those who came in and started things were to keep out. There are apt to be humorous incidents on such occasions. For instance, an enormously fat woman was seen with a placard hanging in front of her womanly bosom, reading: "See what the companies have done to us!" Some men were also summoned to court for rioting. The sheriff told me that, when a deputy served the summons, one fellow exclaimed: "What are they after me for? I didn't do nothing but slap a policeman in the face!" As some schooners which supplied the fish had left and gone to work elsewhere, it will take some time to get the businesses back where they can employ anything like the whole crowd. As a start, I hear that they could only take on less than fifty. As a consequence most of them, many with families, will be out of work for weeks yet. Ignorant as they are, they may again start trouble. You may judge what some are like when I say that a large proportion of the shore fishermen do not even have a vegetable garden. Often it is too windy to fish. Then they just lie around. In one district, a predecessor of mine, as rector here, got some seed potatoes, cut them up and went in person to see that they were planted in one of these localities. After he had left, the people dug the pieces of potato and ate them! You may imagine how difficult it is to deal with men like that when "click" trouble makers come among them.

RECALLS COLEMAN STRIKE I said that this affair made me think of Coleman. I believe it was in 1905, when I was there, that there was a strike which lasted three months. At length, the International Union officials got tired of paying strike allowance and sent a couple of delegates from Minneapolis to see what could be done about it. They settled the strike in about three days.

320 B.C. IN ANCIENT GREECE

The Greeks were not long in following the example of the ancient Egyptians in the making of Beer. The Greeks soon commenced to improve on their knowledge of the art of brewing as far back as 320 B.C., the writer Theophrastus tells us that the Greeks employed barley wine or beer ("Zythos") in their daily life as well as in their festive meetings.

WORLD HAPPENINGS BRIEFLY TOLD

King Leopold of Belgium has assumed supreme command of all his country's armed forces, as his father—King Albert did in the world war.

Two years of compulsory labor has been ordered for all Jews between the ages of 14 and 60 in the German-ruled section of Poland which has not been incorporated in the reich.

The French army is to receive 9,244,230 gallons of wine, to be served to soldiers in the form of mulled wine. Mulled wine is a hot drink, with sugar, spices and egg yolk added to the wine.

British tanker tonnage has gained since the war began, the admiralty announced, denying a German broadcast that 26 tankers had been lost. The report said losses actually were less than half that number.

Li-Col. Ralph H. Webb, D.S.O., former mayor of Winnipeg, has been appointed chief inspector of catering and messing for the Canadian Active Service Force, the department of national defence announced.

Personnel will be drawn from all over Canada for instruction in Ottawa at a central training centre for nurses and doctors of the Canadian Active Service Force. Major Norman Halkett will be in command.

Ontario will campaign in 1940 to bring United States tourists to the province, using the favorable exchange rates on American funds as one point in the tourists' advantage, Premier Hepburn told the legislature.

Raoul Dautry, French armaments minister, came to London with a party of scientists and organization experts to promote joint French and British war efforts in the laboratory and the factory.

Premier Hepburn announced Dr. A. R. Dufour's resignation as a guardian of the Dionne quintuplets had been accepted by the Ontario government. "It was entirely voluntary, of course," remarked Mr. Hepburn.

Royal Bank Of Canada Report

Encouraging Addresses Presented At The Annual Meeting

In his arresting address at the seventy-first annual meeting of the Royal Bank of Canada, President Morris W. Wilson referred to the contribution Canada can make to the Allied cause. "Canada's industry has been geared up to the point where we can outstrip anything we were able to accomplish in the pre-war years," he said. "Canada's iron and steel industry has doubled its potential output since 1918. 'Never before,' Mr. Wilson says, 'has it been so important to practice thrift.'"

Mr. S. G. Dobson, the General Manager, says he expects to see greater business activity in 1940 under the impetus of war orders, greater employment and more general distribution of purchasing power. In his report he showed that the assets and deposits of the bank were at the highest figures recorded in its history, with total assets now standing at \$1,014,708,343.

Misfortune Of War

Finnish Author, Winner Of Nobel Prize, Is A Refugee

A dishevelled little man with seven children walked across the Finnish frontier and into a refugee relief organization at Harparanda, Sweden, where he got food. He promised to pay later for "soon I shall have some money for I am on my way to Stockholm to receive the Nobel prize."

He was Emil Silhanpaa, Finnish author, who won the Nobel literature award worth \$4,500.

More Than Mere Gift

Seven Years Of Careful Work Went Into This Present

The prettiest and most charming Christmas present of the year is one given by a high official of the U.S. Department of Agriculture to his gray-haired wife as a surprise. The gift took seven years to make and is more imbued with romance than could cling to a hundred milk coats or pearl necklaces.

The story begins way back in 1906, when a newly wedded couple, Dr. and Mrs. Lore A. Rogers, went to Washington where Dr. Rogers began his career with the Department of Agriculture. The young couple found a little shingled, white bungalow in Chevy Chase, where they began their married life. They loved the place because of its intimate charm and its likeness to a New England cottage. Years of happy living made it into a true home and filled it with memories until it was a part of their life.

But years went on, the little house became too small for their needs, as Dr. Rogers became chief of the division of research laboratories of the Bureau of Dairy Industries, Department of Agriculture, and his fame as a scientist grew. His experimental equipment went into the stratosphere balloon of the Army and the Bureau of Standards in 1932, and through this and his work the presence of bacteria in the upper air was determined.

For the last seven years, in the gaps of time between his scientific work, Dr. Rogers has been secretly working on a task he loved. With a miniature buzz saw he fashioned 5,000 tiny cedar shingles, planned and cut in proportion, and put them together in a detailed reproduction of their first home. He made it perfect and complete, even to the curtains at the windows and the overhanging trees and the shrubbery beside the door.

By Christmas Day the long labor of love was complete. He gave to his wife their first home, a dear memory that the work of his hands had given form and substance.

NOVEL YOKE ON GAY HOUSEFROCK

By Anne Adams

There's a light-hearted peasant-girl look about this little housefrock, Pattern 4324. It's designed by Anne Adams for easy wearing and making. Don't you love the charming shape of the neck, that's encased in the yoke? A delightful effect that you may play up either by using ric-rac, in vivid contrast. The slim waist and hips are emphasized by unusual softness through the bodice and full skirt lines. Make comfortably flared sleeves if you prefer, and choose a gayly flowered print fabric for this young charmer.

Pattern 4324 is available in misses' and women's sizes 12, 14, 16, 18, 20, 32, 34, 36, 38 and 40. Size 16 takes 3½ yards 35 inch fabric and 2 yards ric-rac. Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

Have No Advisers

Reasons Dictators Finally Make Error That Ends Their Rule

The Fort William Times-Journal says one of the weaknesses of a dictatorship is that the dictator has to act upon his own initiative and cannot fall back upon the counsel of advisers who are closely in touch with the people and with public sentiment. Unless he is infallible as no man can be, he is liable to error. And Stalin has made some miscalculations which bid fair to wreck the plans of both dictators.

Motor spirit, aviation spirit, diesel oil and other products are being obtained from tar and other raw materials in experiments by British government scientists.

Japan recalled many soldiers from China to help in the harvest fields.

KING WINTER CASTS MANTLE OVER WAR MEMORIAL

Looking very ghostly under a coating of ice and snow, Canada's War Memorial at Ottawa glimmers under the lights of the Canadian capital.

SUNDAY SCHOOL LESSON

JANUARY 28

JESUS DRAMATICALLY PROCLAIMS HIS MESSIAHSHIP

Golden text: Behold, thy King cometh unto thee. Matthew 21:5. Lesson: Matthew 21:1-16. Devotional reading: Isaiah 11:1-5.

Explanations and Comments

Preparations for the Triumphal Entry, Matthew 21:1-6. On nearing the end of his last journey to Jerusalem from Galilee (our lesson last week), Jesus and the crowd with him were approaching the village of Bethphage, when Jesus directed two of his disciples to go to the village and secure an ass and a colt with her. They would find her tied, he told them, and if their owner objected to letting the animals go they were to say, "The Lord hath need of them," and he would at once yield. The ass was the fitting symbol for the Prince of Peace. The disciples followed instructions and cast them down upon the way.

The Triumphal Entry, Matthew 21:7-11. The disciples put their loose outer robes upon the ass for Jesus to sit upon, and the multitude with them spread their garments in the way or cut branches from the trees and cast them down upon the road-way. Because of John 12:13, it has been generally supposed that the branches were palm branches, although John only mentions the fact that the people who came out to meet Jesus brought palm branches with them. We know from Rev. 7:9 that palm branches were carried as symbols of victory and rejoicing.

Many people came from Jerusalem to meet and do honor to Jesus, as John records that he came to the Jews on his way to Jerusalem. Jesus with this other multitude of Galileans on their way to Jerusalem to keep the Passover. Both crowds united in crying, "Hosanna to the Son of David!" Compare Psalm 118:25, a part of the great Passover, Hallel, or hymn sung by the Jews on their great pilgrimages to Jerusalem. Hosanna is the Greek form of the Hebrew word translated in Psalm 118 as "Save now" where it is a prayer for help and guidance. As used in the triumphal entry of Jesus it seems to have become a word of greeting, like our word "Hail!" "Blessed is he that cometh in the name of the Lord; Blessed is the Messiah who comes by the authority of God," "Hosanna in the highest!" All hail in heaven.

Has Become Modern

English Town Has A Cat That Knocks For Admittance

London, 27-28 (AP)—This is the story: Even cats, it seems are becoming "modern".

No longer do they sit outside the window and meow, when they want to be admitted. They knock at the door!

At least, that is the example being set by "Tiger", who lives at Catford, England. A dark tabby, Tiger holds decided views on cat treatment. When he wants to be admitted to the house he rests his hind legs on the handle of the letter box, stretches himself out, puts his paw beneath the heavy iron knocker, and after hanging on for a moment, jumps away, allowing the knocker to fall back with a resounding bang.

If the door is not opened promptly, he repeats the performance. He has also found that he can open the inside door by gently turning the handle with both paws.

There is some talk of giving Tiger a latch-key!

Without the love of books the richest man is poor, but endowed with this treasure of treasures, the poorest man is rich.

A. M. Hills invented the lawn-mower in 1868.

Red Cross Workers

Detailed Instructions For Making Socks, Wristlets And Mitts

Balaclava caps, helmets, scarves and mitts are urgently needed, according to a work bulletin issued by the Canadian Red Cross Society. The bulletin also advised that as hospital supplies now are coming in regularly the hundreds of branches throughout Canada were advised to slow down on making sling bandages, abdominal binders, T. binders, pillow cases, pneumonia jackets and Hampton pads.

At the same time the branches were urged to devote more attention to the making of dressing gowns, bed jackets, hot water bottle covers, ice bag covers and surgeon's gowns and caps.

Detailed instructions concerning new regulations for army socks provided that the new army sock is to be 16 inches long from top of cuff to under heel. Seamen's stocking of grey wool to be 18½ inches to 26 inches from top of cuff to under heel. Red Cross labels should not be placed on socks, wristlets or cuffs of mitts as they may affect the stretch of ribbing. Branch inspectors are warned to watch the finish of the toe most carefully, and the suggestion is made that lessons should be given in finishing the toes to guard against lumps or knots.

Socks colors indicate light blue, blue heather or black for the navy; navy blue or grey for the navy; grey for seamen, and all other colors for the army. Socks should be navy blue or white for the navy, air force blue or grey for the air force, and all other colors for the army. Scarves for the navy should be navy blue or grey, 14 inches wide and 66 or 72 inches long. For the air force blue or grey, 12 inches wide and 46 inches long, with khaki preferred for the army, 12 inches wide and 46 inches long.

Helmets and mitts should be khaki for the army, navy for the navy and air force blue for the air force.

In casting on or off for wristlets knitters are warned to cast on or off very loosely. They must be four inches long.

SELECTED RECIPES

ORANGE DROPS

½ cup Bee Hive White Corn Syrup
½ cup butter
1 egg, beaten
2 cups flour
2 teaspoon baking powder
2 teaspoon grated orange rind
1 teaspoon orange juice
¼ teaspoon salt
Cream Bee Hive White Corn Syrup and butter together well. Add egg and beat thoroughly, add dry ingredients sifted together, then rind and juice. Drop on ungreased sheet in small spoonfuls. Bake about 35 degrees F. for 7 to 10 minutes. Yield three to four dozen.

APRICOT AND LIME DESSERT

1 package Lime Jell-O
1 pint hot water
Halves canned apricots
Cream cheese balls
Dissolve Jell-O in hot water. Turn into a 2 quart mold. Unmold. Garnish with apricot halves and cream cheese balls. Serve with whipped cream. For salad, serve with mayonnaise. Serves four.

New Winter Road

Alberta Completes Road To The Shore Of Great Slave Lake

Completion of the Alberta section of the new winter road from Grimshaw to Hay River, a distance of about 350 miles on the shore of Great Slave Lake, was announced by Hon. W. A. Fallow, Alberta minister of public works. He said the construction crew would start immediately on the section of highway lying in the North West Territories, under Dominion jurisdiction. The province will carry out the work and pay for it, with the Dominion later reimbursing the province for expenditures.

Properly-equipped tractor trains can now cover the entire road. Grimshaw is 250 air miles north-west of Edmonton.

Carrying Cattle By Air

Freight Plan In Australia Have Capacity Of 30 Head

Beef cattle in some parts of Australia, where land transportation is very poor, are now hauled by air to the Sydney market, some of the monster freight planes having a capacity of 30 head. They can be thus transported in six hours over courses which would require six weeks by former methods, some hauls being as long as 1,500 miles.—Jersey Bulletin.

Gift For Royal Navy

A gift of 6,000,000 pounds of sugar has been made to the Royal Navy by two prominent citizens of Natal, Sir Charles Smith and George Crooks, it was announced at London. The sugar will be refined at Natal and placed at the disposal of naval authorities immediately.

Health LEAGUE OF CANADA
presents
TOPICS OF VITAL INTEREST
by DR. J. W. S. McCULLOUGH

SCIENCE TO SUFFER UNDER NAZIS

Sir Thomas Holland, principal and vice-chancellor of Edinburgh University, presiding at a graduation ceremony, predicted a degeneration in German Military efficiency as a result of neglect of scientific research, which was evident in the last six years. Sir Thomas, who is a past President of the Institution of Mining and Metallurgy is reported by the London correspondent of the Journal of the American Medical Association as saying by degeneration in Germany, German universities turned out from their research laboratories a gradually diminishing stream of products. Six or seven years ago no scientific man in the world would have dared to pass over the publication of the research institutions of Germany. Not only were they great in volume but their quality was of a kind that led the world.

To-day these volumes of output have diminished to small fragments of their former size, and their quality is negligible. One can predict from this fact alone that the neglect of fundamental truth for its own sake must be followed by degeneration in technical efficiency. What is less important possibly, by immediately important to everybody in Europe, is that this neglect certainly will be followed by degeneration in military efficiency. It is now or never for Germany, even from the military point of view. Referring to the suggestion that Germany itself might soon save the situation, Sir Thomas said it was easy to say, "a great structure but they took many years to build another like it. Only the very youngest of his hearers would live to see the time when German universities would be restored to their old position in the intellectual world."

Editorial Note: Readers detail the complete set of Dr. McCullough's cancer articles at once from the publisher, The Health League of Canada, 105 Bond St., Toronto, Ont.

Air Training Plan

Eighty Aldermores Will Be Needed For Several Thousand Planes

Minister of Transport Howe has now given us a fairly clear picture of the scope and progress of the Empire air training scheme.

Stripped of rhetoric, broken down to realities, this is the project:

1. It will involve the use, for training purposes, of 4,367 airfields.
2. Of these, 1,282 will be built in Canada (the scope of the program is less the wings which will be made in Canada) will be built in Britain; 870 others will be built in Britain, but assembled here; and 593 will be built in the United States.

3. Altogether, there will be need for 50 instructors, accommodation for schools and personnel and for "several thousand airplanes."

4. More than 1,000 workers will be employed in constructing these airfields and fields, and some 35,000 men will be needed for teaching and mechanical and "ground" work.

How is the plan progressing? Mr. Howe tells us that some 40 Trans-Canada and municipal airfields can be used "immediately," and that survey parties are now at work in the nine provinces examining and surveying locations for the 40 others that will be needed. Meanwhile contracts are being prepared and will be let shortly for the "planes that are to be built in Canada, and deliveries of the first aircraft coming from outside is expected by May."

Taken all in all, judging from Mr. Howe's report, this scheme now looks like the vitally important one that it should be—and which the public expects it to be. It seems hardly necessary to add that it cannot be prosecuted with too much vigor and speed—consistent with efficiency.—Ottawa Journal.

The world's oldest art is said to be architecture. Earliest dated architectural remains are those of the Babylonians, which date as far back as 6,000 B.C.

The rue de Moscow may disappear in Paris, to be renamed the "rue de Helsinki," a tribute to Helsinki, the gallant Finnish capital.

Zak's Store Narrowly Escaped Fire Outbreak

It was a lucky "hunch" that
prompted Henry Zak, jr., to call
in at the store at 6:45 last even-
ing (Wednesday) for the smell
of burning wood assailed him,
though he could discover no
blaze. He called the fire bri-
gade, and Chief "Bill" Burrows
immediately turned out with his
helpers and hose truck. Invest-
igation revealed that sawdust,
which had been packed around
the chimney many years ago as
insulation, had smouldered, evi-
dently the bricks in the chim-
ney becoming sufficiently heat-
ed to start the sawdust. Had
the fire got a start later in the
night, it might have been
fraught with grave consequences,
as the family of Mr. Dan McLe-
lan occupy the rooms above
the store.

With so much sawdust packed
around the chimney bricks, it is
surprising that an outbreak had
not occurred before.

Local News

Coleman Shamrocks were de-
feated 5-4 by Thompson's Mid-
gets at Blaimore last night.

Mr. and Mrs. Charles Nicho-
las are Calgary business visitors.

In Memoriam

CAMPBELL—In Loving Memory of
Bertha Campbell, who died on January
24, 1939, at Coleman.

"In our hearts your memory lingers,
Sweetly, tender, fond and true;
There is not a day, dear sister,
That we do not think of you."
—Lovingly remembered by her sister,
Simonne Parkinson, and Harry
Parkinson, Sixth Street, Coleman.

CAMPBELL—In Loving Memory of
our dear mother, Bertha Campbell,
who died on January 24, 1939.
"Just a line of sweet remembrance,
Just a memory fond and true,
Just a token of love's devotion
That our hearts still long for you.
The years of her life were numbered,
When the messenger whispered low,
'The Master has come and called for
thee.'"

She answered: "I am ready to go."
—Lovingly remembered by her
sons, Robert and Howard Campbell,
Coleman.

CAMPBELL—In Loving Memory of
Bertha Campbell, who died on Janu-
ary 24, 1939.

"We do not forget her, we love her
too dearly,
For her memory to fade from our
lives like a dream;
Our lips need not speak when our
hearts mourn silently,
For grief often dwells where it
seldom is seen."
—Sadly missed by Mother, Sisters
and Brothers.

CARD OF THANKS

We tender our most grateful thanks
for the many messages of sympathy
and beautiful floral tributes received
in the death of our beloved mother,
and to all who in any way assisted at
the funeral, and those who loaned
cars. Thanks are also expressed to
Mrs. Karl Johnson, and to Dr. H. Clax-
ton for their kind services.—THE
VINCENT FAMILY, Coleman.

SPORT HIGHLIGHTS

BASKETBALL WAS INVENTED IN 1891 BY
A GYM INSTRUCTOR IN SPRINGFIELD,
MASS., TO BREAK THE MONOTONY OF
IDLE TIME BETWEEN BASEBALL SEASONS.

The idea is to see
how many times you can

MINE WORKERS of COLEMAN

Following is the reply by Coleman Miners Association Executive to an advertise-
ment issued by The United Mine Workers of America, on Jan. 12, 1940

In the first place no motion was ever put to the
meeting of any meeting of the Coleman Miners'
Association to dissolve this organization, and if
any minute is entered in the minute book of this
organization it has been entered after the meeting.
The opportunity to do this can be readily seen when
we state that the secretary of the U. M. W. of A.
local union seized the books of this organization.
We have been prepared to combat this statement for
quite some time with several reliable witnesses who
were present at the meeting, and therefore we will
exist as an organized body, much to the discomfort
of the U. M. W. of A.

Next we take the statement of the "Peace of
the Graveyard," brought about by intimidation to the
mine workers by the company. During this period
the present secretary of the U. M. W. of A. and his
committee were openly working in recognition for
the U. M. W. of A. On top of a continuous cam-
paign of whispering and coercion, they forced four
distinct ballots. This should be sufficient answer to
any statement they make as to "fear of company
dictation."

Regarding the increase so valiantly fought for
by the U. M. W. of A., and which the Coleman
Miners got without the cost of one cent leaving
Coleman. The increase granted by the Conciliation
Board resulted from the findings of the Board that
mines adjoining Coleman had worked, over a per-
iod of years, about one hundred days less per year
than the Coleman mines. Conciliation Board brought
down an interim report, signed by U. M. W. of A.
representatives, stating that if the other mines of
the Pass were to get the same number of working
days that the Coleman mines were getting, then
there would be no need of an increase in wages,
and the Board was prepared to bring down a finding
to that effect.

The increase in wages was granted to bring up
the miserable wage being earned in some mines
under the U. M. W. of A., and this increase was ob-
tained by Coleman Miners Association with practi-
cally no effort, although the conditions which were
responsible for the increase did not prevail in Cole-
man.

If any increase was needed in Coleman annually
where the work was much better than at the ad-
joining mines for the last eight years, why did not
the U. M. W. of A. get the annual increase for the
mines under their jurisdiction?

Again, if the U. M. W. of A. are able to get
wage increases, as they claim, why is it that right
here in this province there are mines under their
jurisdiction which are not getting as high wages as
the Coleman mines, which they do not control?

ASSESSMENTS FOR POLITICAL PURPOSES

The writer of the U. M. W. of A. article should
have been a more regular visitor to Coleman, and he
would have found out for himself that no suppres-
sion of speech was ever in effect in Coleman or dicta-
tion of any kind such as has been carried on from
District Headquarters at Calgary during the present
campaign for recognition of the U. M. W. of A.
The word "Democratic" seems to be quite a by-word
of the officers of the U. M. W. of A., since it is being
used quite freely in Coleman; but let them read the
article in the Column Digest and Editorial Review
of December under the heading "The Miners' Polit-
ical Pund" and see how Mr. J. L. Lewis is going to
collect about \$1,000,000, by assessment, from the
members of the U. M. W. of A. Whether they are
Democrats, Republicans, Liberal or Conservative, they
must pay to this fund \$2 per member. Is this

the kind of Democracy the U. M. W. of A. want to
bring to the Coleman mine workers?

If the U. M. W. of A. wish to get down to figures,
let us do a little figuring as to how much money they
propose to take out of this camp. The per capita
dues alone amount to \$1.10 per month per
man, and for each member this is \$13.20 a year.
For 800 men this is roughly \$10,000 per year. Dur-
ing the fifteen years since the U. M. W. of A. deserv-
ed the miners of Coleman, if they had still been in
power they would have collected from Coleman
miners the staggering sum of \$150,000. These fig-
ures cover the per capita tax only, and do not in-
clude special assessment and levies which are made
from time to time; neither do they include any funds
for local purposes. Another query which has pur-
sued us is the \$4 coming into Coleman for every \$1
going out, when we hear reports of 2½% of ear-
nings being levied on members of the U. M. W. of A.
in adjoining mines, and other mines of this district,
to pay for the campaign in Estevan, Sask. Does
this look like the money was coming back from the
States?

Another case is quite near at hand, namely, the
Blaimore and Bellevue strike. At a recent meet-
ing of Coleman Miners' Association, at which Mr. R.
Livett gave a report on the meeting with the man-
agement of the Coleman mines, during discussion he
was asked: Did the miners at these mines pay back
the money they were paid while on strike pay? to
which he replied that they did not, but were assessed
\$1 a month for two months, as well as the rest of
the District.

Mr. Livett also stated that between eight and
nine thousand dollars was paid out at these places,
and that there were 8,500 members of the U. M. W.
of A. in District 18. Why was \$2 assessment made
on 8,500 members, making a total of \$17,000 to pay
for the eight or nine thousand that were paid out?

MAKE-UP CLAUSE IS LIVED UP TO

The U. M. W. of A. ask: How effective is the
make-up clause in Coleman? The institution is that
the make-up clause is not effective, although they
are careful not to say so. The answer to their ques-
tion is this: The make-up clause in Coleman con-
tract is lived up to. As far as the present officers
know, there has never been a refusal to make up to
the minimum wage for any abnormal working place.
If there has been, it is the fault of the present of-
ficers of the local U. M. W. of A., because they have
formerly been the officers of Coleman Miners' As-
sociation, through which body such matters should
have been properly taken up.

The U. M. W. of A. make further claim that
they are recognized by the Government of Canada.
If this is so, why were they not able to do some-
thing about the closing of the Hillcrest mines,
when, as reported to us by Hillcrest workers, they
had an order for 40,000 tons to fill? Further, after
taking about thirty Hillcrest men into the employ of
the Hillcrest-Mohawk mines, these mines receive
this order, which is practically making scale of the
Hillcrest men employed on their former workmates.

CONTRAST DUES—\$48.00 AT CADOMIN

We also have a report from Cadomin that the
Union dues and assessments for the U. M. W. of A.
last year amounted to the sum of \$48.00. Compare
this with the Union dues collected in Coleman dur-
ing 1938 and 1939, when the sum of \$25.00 per year
was collected from the members.

This is our reply to the U. M. W. of A.

THE EXECUTIVE,
COLEMAN MINERS' ASSOCIATION.
